FINLAND STARTED TO WORK ON RESTORATION PLAN FOR UKRAINE

Finland started to work on Restoration plan for Ukraine

At the first stage Finland will develop a plan for advisory services for Finnish business that can help Ukraine. It will also identify the financial ways for Finnish business participation in the reconstruction project. Later on the foreign investors will prepare a long-term plan.

Finland hopes that cooperation at all levels will allow a fast and effective implementation of all planned projects.

MINISTRY OF HEALTH OF UKRAINE: HOW WILL THE UKRAINIAN MEDICAL SYSTEM RETURN TO DE-OCCUPIED TERRITORIES OF UKRAINE

Rapid and effective restoration of the healthcare system in the future de-occupied territories is a strategic goal for the state. This was emphasised at the Ministry of Health as a result of an interdepartmental meeting involving international and public organisations, as well as representatives of medical institutions.

Integration of the medical system in the de-occupied regions has to be comprehensive, meaning that it will involve a gradual transition to the Ukrainian healthcare system.

USA WILL SUPPORT UKRAINE IN POST-WAR RESTORATION AND OBTAINING COMPENSATION FROM RUSSIA FOR ITS AGGRESSION

Ukraine's active foreign policy continues aiming at supporting international cooperation and strengthening partnership with the USA. There was a meeting from July 26 to 28 in Washington between the Naftogaz team and representatives of the US Congress and executive branch. The parties discussed the terms of cooperation in the energetic sector, post-war recovery and compensation for damages that Russia must provide for damaged or expropriated assets.

The path of the Naftogaz company will be an example for other companies that were affected by the Russian aggression. Such compensation will contribute to post-war recovery and can be used as an initial capital for Ukrainian enterprises.

POST-WAR RECONSTRUCTION FORECAST FROM THE BUREAU OF INVESTMENT PROGRAMMES

According to analysts' estimates, restoration of the infrastructure, enterprises, and residential buildings in the country that were affected by the Russian aggression can take up to 10 years. However, if we start to plan now and in the spring 2024 start the construction of factories in Ukraine which will participate in restoration after the war, providing the necessary materials and equipment this timeline may be decreased by 4-5 years, believes Alexander Bondarenko, Managing Partner of the Bureau of Investment Programs.

In his opinion, for the post-war recovery of Ukraine, approximately 60-80 of big factories producing different construction materials will be enough.

Other perspective directions of post-war reconstruction:

- Machine building;
- establishing a decentralised logistics system with the numerous regional hubs;
- Agro-products processing and food production.

FIRST 4 OPERATORS OF ORGANIC PRODUCTION RECEIVED A CERTIFICATE OF UKRAINIAN STANDARD

In Ukraine the State Register of Operators engaged in the production of goods in accordance with the requirements of organic production legislation, circulation, and labelling of organic products, has been launched. The first operators who have obtained certificates of compliance for organic production and circulation of organic products in accordance with Ukrainian legislation in the respective field have already been included in the Register.

Previously, the production of organic products in Ukraine was carried out according to standards equivalent to EU and other countries' standards. The launch of the Register signifies that organic production will now be carried out and certified according to Ukrainian legislation and labelled with the Ukrainian state logo.

UNDER THE PROGRAMME «YERECOVERY» 10 THOUSANDS FAMILIES SUBMITTED APPLICATION FOR COMPENSATION TO REBUILD HOUSES DAMAGED BY RUSSIANS

On August 1, 2023, the compensation mechanism for destroyed housing was launched within the «yeRecovery» program. Starting from August 15, commissions in communities began to review destroyed housing to make decisions regarding the provision of appropriate compensation.

As of August 18, applications for compensation for destroyed housing totaling over 700 million hryvnias have been processed under the «yeRecovery» program. 10,000 Ukrainian families have already submitted applications for payments to rebuild their homes. The total amount of compensation is 836 million hryvnias. It is noted that the highest number of applications for damaged housing came from the regions of Kharkiv, Kyiv, Mykolaiv, Kherson, and Donetsk.
