# OUR VISION

# VICTORY TRAIN

We know how Japanese society survived the nuclear disaster. But today, when we boarded the train from Tokyo to Hiroshima, the entire trip took just 4 hours.

It was a fast train and I thought about the fact that it is the same distance from Kyiv to Simferopol, Crimea. And I dream that one day it will be possible to reach Crimea by such a train. This will be the Victory Train, because the best Japanese technologies will become part of the reconstruction of Ukraine.

## APPEAL TO RAMSTEIN PARTICIPANTS TO PROVIDE UKRAINE WITH MODERN WESTERN TANKS

We, as representatives of civil society, call on the Western governments to form a coalition and supply Western tanks for Ukraine as soon as possible, including, Leopard 2 tanks which are in mass use in Europe. A declaration and decision to supply Ukraine with main battle tanks would encourage other countries to share their tanks too. We're calling upon you to show a new level of solidarity with Ukraine following the Russian constant escalation.
